We invite you to an exclusive event of creativity and connection as William Blair proudly presents a vibrant, art-filled venue and private reception in Miami on Wednesday, December 3, during Art Basel.

Our “Ancestral Frequencies” exhibition will showcase works by celebrated diverse contemporary artists. This dynamic presentation, located at the iconic Art Deco Museum building, is in collaboration with CADA (Contemporary African Diaspora Art) and Carter Fine Art Services. The event will include a moderated conversation with artists, offering insights into their creative journeys and the cultural narratives behind their work. A reception will follow, providing an opportunity to engage with the exhibiting artists and fellow guests.
